<p><u>Fertilizing Landscape Trees</u></p>	<p>A guide for homeowners on fertilizing their landscape trees. It covers nutrient deficiency symptoms, fertilizer composition, organic and inorganic fertilizers, timing of application, correct fertilizer quantities, and fertilization for different tree types.</p>
<p><u>How to Prune Deciduous Landscape Trees</u></p>	<p>For homeowners who will be hiring a contractor or who want to prune their own trees. Covers pruning tools, when and how to prune, pruning mature trees, pruning trees near power lines, and pruning diseased trees. More than 21 illustrations show pruning cuts and more.</p>
<p><u>Trees for Southwestern Landscapes: Selection and Irrigation</u></p>	<p>Will help you pick water-conserving trees for southwestern Idaho and plan a watering regime to keep your trees healthy while conserving water. A listing of water-thrifty deciduous and coniferous trees for the region gives information on tree size, water requirements, form, and other interesting tree features.</p>
