

## Records Required by the FSMA Produce Safety Rule

*K. Woods, D. Pahl, D. Stoeckel, B. Fick, G. Wall, and E.A. Bihn*

*\*This publication has not been approved by the FDA and should not be considered legal guidance. It is provided in response to PSA training participants who asked for examples of records required by the FSMA Produce Safety Rule.*

The FSMA Produce Safety Rule (PSR) requires a few specific records. This publication summarizes the provisions requiring records and includes template records to help establish records to meet FSMA PSR requirements. Growers may want or need to keep additional records to ensure that required practices are being carried out correctly, to meet buyer requirements, and/or participate in a third party audit. Other documentation, such as Standard Operating Procedures (SOPs), may be helpful to support the implementation of practices on the farm.

Throughout this factsheet, the  icon indicates a template record is provided. Clicking on the icon will take you to an example record. The template records provided are examples of required records. They have not been approved by FDA and other formats may be used. This publication should be used in conjunction with the Produce Safety Alliance (PSA) Grower Training Curriculum and the PSR preamble and codified regulation. It should not be used as a standalone reference.

All records required by the PSR must contain certain information as outlined in § 112.161. Except as otherwise specified, all required records must include:

- The name and location of the farm
- Actual values and observations obtained during monitoring
- An adequate description of covered produce, if applicable to the record (e.g. the commodity name, or the specific variety or brand name of a commodity, and any lot number or other identifier)
- The location of a growing area or other area, if applicable to the record (e.g. a specific field or packing shed)
- The date and time of the activity documented

Records must also be created at the time an activity is performed or observed, be accurate, legible, indelible, dated, and signed or initialed by the person who performed the activity.

## Records to Support a Farm's Coverage or Exemption Status

*Subpart A, General Provisions, outlines what farms and commodities are covered by the Produce Safety Rule*

§ 112.2 requires documentation to support an exemption from FSMA Produce Safety Rule requirements for produce undergoing a further processing step. Broadly, this includes:

- Farm documentation accompanying the produce stating that the food is “not processed to adequately reduce the presence of microorganisms of public health significance”

**Qualified Exemption Review Template**

Name and address of farm: \_\_\_\_\_ Date: \_\_\_\_\_

**Total food sales** (in addition to produce, these sales include all other food for humans, feed for animals, and sales of live food animals)

Year 1 (Sales year: _____)	\$ _____	
Year 2 (Sales year: _____)	\$ _____	
Year 3 (Sales year: _____)	\$ _____	

**Average total food sales** \$ \_\_\_\_\_ **A**

Inflation adjusted<sup>1</sup> threshold for (range) \$ \_\_\_\_\_ **B**

(for example, B is \$561,494 for 2017-2019)

A must be smaller than B for eligibility

**Sales to qualified end users (QEUs)** (e.g. consumers anywhere, or grocery stores and restaurants within 275 miles or within the same state or Indian reservation)

Year 1 (Sales year: _____)	\$ _____	
Year 2 (Sales year: _____)	\$ _____	
Year 3 (Sales year: _____)	\$ _____	

- A written assurance from the customer that the produce will be processed to adequately reduce microorganisms of public health significance. This assurance must be obtained annually.

§ 112.7 requires records to establish eligibility for a qualified exemption. Records, such as receipts, must demonstrate that the farm satisfies the criteria for a qualified exemption. This includes a written record reflecting that the grower has performed an annual review and verification of the farm’s continued eligibility for the qualified exemption. Receipts must be dated, but no signature is required. The annual review verifying the farm’s qualified exemption must be reviewed, dated, and signed by a supervisor or responsible party within a reasonable time after the records are made. 

**Personnel Qualifications and Training (Subpart C)**

§ 112.30 requires documentation of required training. Documentation must include the date of training, topics covered, and the names of persons trained. Required training topics are outlined in § 112.22. Training records must be reviewed, dated, and signed by a supervisor or responsible party within a reasonable time after the records are made. 

**Worker Training Record Template**

Name and address of farm: \_\_\_\_\_ Date: \_\_\_\_\_

Trainer: \_\_\_\_\_ Training time: \_\_\_\_\_

Topics Covered: \_\_\_\_\_

**Training materials:** Please attach any printed materials related to the training. Also reference any relevant SOPs or sections of the farm food safety plan that apply.

Employee Name (please print)	Employee Signature
1. _____	_____
2. _____	_____

**Agricultural Water (Subpart E)**

§ 112.50(b) requires the following records that are relevant to agricultural water:

1. The findings of the inspection of the agricultural water system in accordance with the requirements of § 112.42(a). This record does not require a review but it is a best practice to have records reviewed to assure they are correct. 

**Water System Inspection Record Template**

Name and address of farm: \_\_\_\_\_

See farm policy for specific water distribution system inspection procedures.

Date	Time	Water Source and/or Distribution System	Observations	Corrective Actions Taken	Initials
4/22/16	7:00 AM	Well 1, north field	Well casing in good shape, backflow prevention device in place, no broken pipes	None	EAB
4/22/16	9:00 AM	Pond, south field	Significant geese presence	Introduced swan decoys. Will monitor	EAB

2. Results of any analytical tests conducted on agricultural water to comply with FSMA Produce Safety Rule provisions. Test results are obtained from the lab and must be reviewed, dated, and signed by a supervisor or responsible party within a reasonable time after the records are made.

3. Scientific data or information growers rely on to support the adequacy of the methods related to water treatment.

4. Documentation of the results of water treatment monitoring carried out under § 112.43(b). Water treatment monitoring records must be reviewed, dated, and signed by a supervisor or responsible party within a reasonable time after the records are made. 

**Water Treatment Monitoring Record Template**

Name and address of farm: \_\_\_\_\_

Please see the food safety plan for overall water treatment procedures.

Date	Time	Water pH	Water Temperature	Turbidity	Sanitizer (name & rate)	Corrective Action Needed (yes or no)	Initials
10/14/16	8:35 am	8.5	65° F	25 NTU	NaOCl 75 ppm	Yes - pH was too high, added citric acid, retested - pH 7.0	EAB
10/14/16	12:00 pm	7.0	72° F	47 NTU	NaOCl 85 ppm	no	EAB

5. Scientific data or information relied upon to support the microbial die-off rate between harvest and end of storage or removal rate during activities such as washing, if used in accordance with § 112.45(b)(1)(ii).

6. Documentation of corrective measures taken in accordance with § 112.45(b) if agricultural water does not meet the numerical water quality criteria in § 112.44. A template corrective measures record specifically for the die-off provision § 112.45(b)(1) is provided as a resource. This record must be reviewed, dated, and signed by a supervisor or responsible party within a reasonable time after the records are made. 

**Agricultural Water Die-Off Corrective Measures Record Template**

Water source: \_\_\_\_\_

Current calculated GM: \_\_\_\_\_ CFU/100 mL water  
 Current Calculated STV: \_\_\_\_\_ CFU/100 mL water  
 Calculated Interval: \_\_\_\_\_ Days  
 Adjusted GM: \_\_\_\_\_ CFU/100 mL water  
 Adjusted STV: \_\_\_\_\_ CFU/100 mL water

**EXAMPLE**

Water source: Southwest pond  
 Current Calculated GM: 100 CFU/100 mL water  
 Current Calculated STV: 600 CFU/100 mL water  
 Calculated Interval: 1 days (0.5-log)  
 Adjusted GM: 60 CFU/100 mL water  
 Adjusted STV: 220 CFU/100 mL water

Field	Crop	Date and time of beginning of crop harvest	Date and time of end of last water application	Time interval since last water application	Harvest Supervisor Initials
2A	Cornland Apple	9/23/2016, 1:00 PM	9/21/2016, 4:00 PM	2 days	DMP
2A	Cornland Apple	9/25/2016, 10:00 AM	9/21/2016, 4:00 PM	4 days	DMP

7. Annual documentation of the results or certificates of compliance from a public water system as outlined in §§ 112.46(a)(1) or (2), as applicable. Annual records from the public water system can be obtained from the water authority.

8. Scientific data or information to support any alternative microbial water quality criteria, die-off rates, or sampling frequencies established and used on the farm in accordance with § 112.49.

9. Support for any equivalent analytical methods used in lieu U.S. EPA method 1603 (modified mTEC).

### Biological Soil Amendments of Animal Origin (Subpart F)

§ 112.60(b) requires records for biological soil amendments of animal origin.

For soil amendments that growers treat and apply on their own farms, records must be kept to document that process controls (e.g., time, temperature, and turnings) were achieved. Records related to on-farm soil amendment treatment must be reviewed, dated, and signed by a supervisor or responsible party within a reasonable time after the records are made. 

**Compost Treatment Record Template**

Name and address of farm: \_\_\_\_\_

Type of compost method: Windrow Date piled: 9-15-2016 Date finished: \_\_\_\_\_ Row number: 2

List all ingredients added to compost: chicken litter, kitchen scraps, dried leaves, straw

Use this record for on farm composting. Record the date piled, turning dates, and the temperatures maintained. Use one sheet for each pile or row.

Date Turned	Temp/Time Test Area 1	Temp/Time Test Area 2	Temp/Time Test Area 3	Temp/Time Test Area 4	Initials
9-25-2016	135 F/ 2:00 PM	138 F/ 2:01 PM	140 F/ 2:03 PM	135 F/ 2:04 PM	EAB
9-26-2016	137 F/ 2:15 PM	137 F/ 2:18 PM	138 F/ 2:19 PM	137 F/ 2:25 PM	EAB

For soil amendments received from a third party, growers must document annually that:

- The process used to treat the biological soil amendment of animal origin is a scientifically valid process that was carried out with appropriate process monitoring; and
- The biological soil amendment of animal origin has been handled, conveyed, and stored in a manner and location to minimize the risk of contamination by an untreated or in process biological soil amendment of animal origin.

### Equipment, Tools, Buildings, and Sanitation (Subpart L)

§ 112.140(b)(2) requires that growers subject to the rule establish and keep a record of the date and method of cleaning and sanitizing equipment used in covered harvesting, packing, or holding activities. This record must be reviewed, dated, and signed by a supervisor or responsible party within a reasonable time after the records are made. 

**Cleaning and Sanitizing Record Template**

Name and address of farm: \_\_\_\_\_

List the date, time, tool or equipment name, and method for each cleaning or sanitizing activity.

Date	Time	List tools/equipment	Cleaned and/or Sanitized?	Method used	Cleaned By (Initials)
10/11/16	10:07 AM	Harvest tools	cleaned	See Cleaning SOP (Removed dirt with brush, washed with detergent, rinsed, air dried)	EAB
10/11/16	10:30 AM	Dump Tank	cleaned and sanitized	See Dump Tank Cleaning and Sanitizing SOP (drained tank, washed with detergent, rinsed, sanitized with 150 ppm NaOCl)	EAB

### **Storage of Records, Allowable Record Types, and Off-Site Storage (Subpart O)**

§ 112.162 allows for the storage of records offsite if such records can be retrieved and provided onsite within 24 hours of official request. Electronic records are acceptable if they can be accessed on the farm.

§ 112.163 specifies that existing records do not need to be duplicated if they contain all of the required information. For instance, if records are kept for organic certification and they include the required information, there is no need to duplicate these records.

§ 112.164 requires that records be kept for at least 2 years past the date the record was created. Records that a farm relies on to support a qualified exemption must be retained as long as necessary to support the farm's status.

§ 112.165 requires the records be kept as original records, true copies or electronic records.

§ 112.166 outlines requirements for making records available and accessible to FDA.

- Records must be readily available and accessible during the retention period for inspection and copying by FDA upon oral or written request. Growers have 24 hours to obtain records kept offsite, even if the farm is closed for a prolonged period.
- Records must be provided to FDA in a format that is accessible and legible.

§ 112.167 specifies that records obtained by FDA in accordance with the Produce Safety Rule are subject to the disclosure requirements under 21 CFR part 20 (Public Information). All of the templates provided in this document are marked Confidential to reduce the likelihood that farm records would be released in response to a Freedom of Information Act (FOIA) request submitted to FDA should they obtain or copy farm records.

# Qualified Exemption Review *Template*

Name and address of farm: \_\_\_\_\_ Date: \_\_\_\_\_

**Total food sales** (in addition to produce, these sales include all other food for humans, feed for animals, and sales of live food animals)
